Re: Proposal R-05-0034

Dear Justices:

We write to you to strongly urge you not to pass Proposal R-05-0034 for a few reasons. First, every one of us feels that after the age of seventy (70) and many years of service practicing law there should be some reward. Second, one of the benefits of reaching this age as an attorney should be that Continuing Education credits are no longer required. Additionally, the majority of attorneys who are age seventy (70) and older are not taking on large caseloads and still willingly and voluntarily attend seminars to further their knowledge and experience. For these reasons we appeal to you and ask for your support in opposing Proposal R-05-0034.

Thank you for your time and consideration on this matter.

Signed:

Gary B. Larson
